

Preparing for the Canadian Open Mathematics Challenge (COMC)

This webinar is taking place within the cadre of CMS' [Closing the Gap Initiative](#) for Black and Indigenous Students. The free online and interactive webinar is designed to prepare students participating in the COMC through this initiative, but is open to all Black and Indigenous students interested in mathematics and math competitions. Topics will include:

- potential subjects of study;
- problem solving strategies;
- practice examples; and
- general advice for writing mathematics competitions.

When: Thursday, Oct. 22 6:30 EDT

Registration: Register [here](#) and we will send you the Zoom information closer to the date of the event.

Dr. Jeremy Eng was born and raised in Saskatoon, Saskatchewan. He obtained his Ph.D. in Statistics in 2020. Currently he is a postdoctoral researcher at the University of Saskatchewan, working jointly with the Departments of Mathematics and Statistics, and Computer Science. His current work involves applying and developing machine learning techniques to opioid addiction and COVID-19 data. Outside of research, Jeremy enjoys biking, hiking, and playing hockey, baseball, and flag football.
